COUNTER-MOUNTED SureFlo® AUTOMATIC TOP-FILL BULK FOAM SOAP DISPENSER

B-828

Patented

MATERIALS:

Spout and Stem Assembly — Above the counter, chrome plated ABS plastic spout. Unit is equipped with a spring loaded 180° rotatable lid with concealed locking mechanism for top filling. Rotatable lid mechanism consists of metal components. Integrated to Spout are a grey plastic Dispense Tip and Activation Lens Housing. Stem connects to Bottle.

Foam Mixer Cartridge – Located inside grey nozzle tip, mixer cartridge has an integrated nylon mesh and nozzle tip is removable for mixer cartridge cleaning and maintenance.

Air Pump — Diaphragm operated electronic air pump connects to the air tube adapter and supplies air to the Foam Mixer Housing.

Foam Mixer Housing – Plastic construction connects air tube and soap outlet into a mixing chamber to create a preliminary mixture of foam.

Soap Bottle — Translucent, shatter-resistant polyethylene. Capacity: 34-fl oz (1.0-L).

Pump and Soap Delivery System — A plastic Gear Pump submerged in the bottom of the Bottle, pumps the foam soap through a vinyl tube to spout.

Bottom Housing – Water-resistant, ABS plastic housing attached to the bottom of the Bottle houses the PC Board, motor that drives the Gear Pump, and the Gear Pump Housing. It includes a Portion Control Knob, Flush Button to allow for system cleaning and maintenance, a connector for the Fiber Optic cables, and Power Port.

Electronic Activation/Indication System – Pair of plastic Fiber Optic cables connects the plastic Activation Lenses to an IR Sensor located on a PC Board in the Bottom Housing. A third plastic Fiber Optic cable connects an LED located on the PC Board to an acrylic Lens at the tip of the Spout; a solid green LED indicates dispense activity and a red blinking LED indicates low battery life. All three cables are integrated into one Fiber Optic Connector Tip for ease of installation.

6V AC Adapter – 6V AC Adapter with U.S. Plug comes standard. Optional Battery Pack available, order Part No. 824-241. Battery Pack uses 4 “D” cell batteries (not included). For outlets not compatible with U.S. plugs, order Part No. 3974-58.

OPERATION:

To fill dispenser, insert tip of standard key provided into opening of the concealed locking mechanism in the dispenser body to disengage door for quick and easy top filling. Lid will open for filling dispenser with bulk **foam** hand soap. Rotate door counter-clockwise to close and lock in place.

To activate dispenser, place hand under spout near the sensor for approximately 1/2 second. Spout will dispense foam that is generated by mixing air and foam soap. The texture of the foam can be adjusted by rotating the control dial. The texture may vary depending on the type of soap used.

Designers Note: Bobrick Foam soap dispensers are designed to dispense commercially marketed all purpose foam hand soaps and antibacterial foam soaps that are not alcohol or iodine based. Acceptable foam soaps need to have a viscosity of less than 100cP (centipoise).

INSTALLATION:

Unit is designed for installation into counter up to 2" (50mm) maximum thickness with minimum 1-3/8" (35mm) diameter mounting hole. Unit may be mounted through special hole requisitioned when lavatory is ordered from manufacturer (specify punching locations). Recommended mounting location is between 6" to 8" (150 to 205mm) from back wall and 3" (75mm) from the sink rim to the center of the mounting hole. Minimum 18" (455mm) vertical and 5" (125mm) diameter clearance required for soap bottle and bottom housing below mounting hole. Plug AC Adapter into wall and end plug into power port on bottom housing.

Designers Note: Unit is not compatible with above the counter sink rims greater than 1-1/2" W x 1" H (25 x 40mm) or 2-1/2" W x 1/2" H (65 x 12.7mm). **Caution:** Sink rim must not come into contact with activation area. For more information refer to Form No. 824-307 Mounting Template in the Installation Instructions.

SPECIFICATIONS:

Counter-Mounted, Automatic, Top-Fill Bulk Foam Soap Dispenser shall dispense commercially marketed all-purpose bulk foam hand soaps. Spout assembly shall be bright polished chrome plated ABS plastic with integral stem to accommodate up to 2" (50mm) thick counter tops. Unit shall be equipped with oversized funnel shape opening, covered by a 180° rotatable lid with concealed locking mechanism to allow for top filling. Unit shall have LED indicators to show when unit has been activated and low battery life. Unit shall have IR Sensor located on PC board housed in a water-resistant plastic housing. Activation Lens shall allow for defined activation range to eliminate chance of false activation during hand washing. Unit equipped with unique two stage foam mixing chambers. Air pump delivers air to foam mixer housing, combining foam soap solution and air to form a preliminary mixture of foam. Soap is then pumped through spout where a second chamber in the nozzle tip houses a mixer cartridge with nylon mesh which delivers a rich lather of foam soap. Control Dial shall allow field adjustment of foam texture. Unit shall be equipped with an Automatic System Flush Button to allow for cleaning and maintenance. Comes with 6V AC adapter. Optional Battery Pack available, order Part No. 824-241. Battery Pack uses 4 “D” cell batteries (not included). For outlets not compatible with U.S. plugs, order Part No. 3974-58.
